Notes:

1. Foreign currency translation

Income and expenses denominated in foreign currencies are translated into CHF using average exchange rates for 2023 as published by the Swiss National Bank, based on the value of the original currency.

2. Cash balances

Cash balances held in foreign currencies are translated into CHF using the exchange rate applicable at the reporting date (31.12.2023). Opening balances correspond to the exchange rate as of 31.12.2022.

3. Foreign exchange difference

Foreign exchange differences arise from the translation of foreign-currency transactions and balances using different exchange rates and are recognised separately in the income statement.

4. Reporting currency

The financial statements are prepared in Swiss francs (CHF). Amounts shown in EUR are provided for information purposes only.
