The following table provides an overview of balances for major activities in 2025 and does not represent cash balances or balance sheet positions. Project grants are excluded: they reimburse eligible costs, so an annual net figure reflects the reimbursement rate and the flat overhead percentage rather than how the project performed. Their cumulative position against contract value is shown separately below.

### Notes:

#### 1. Foreign currency translation

Income and expenses in foreign currencies are translated into CHF using the Swiss National Bank 2025 monthly average rates, based on the value of the original currency. Where a transaction carries an actual booked exchange rate (Wise, Stripe) that rate is used; where the amount is denominated in CHF the CHF figure is taken directly.

#### 2. Cash balances

Cash balances in foreign currencies are translated into CHF at the rate applicable at the reporting date (31.12.2025). Opening balances use the rate as of 31.12.2024.

#### 3. Foreign exchange difference

Foreign exchange differences arise from translating foreign-currency transactions and balances at different exchange rates and are recognised separately in the income statement.

#### 4. Reporting currency

The financial statements are prepared in Swiss francs (CHF). Amounts shown in other currencies are

provided for information only. During the year the association also held SGD and CAD balances; both opened and closed at nil.

#### 5. Change of accounting basis (2023–2024 cash basis; 2025 accrual basis)

The 2022 statement already recognised a receivable. The 2023 and 2024 statements carried no receivables or payables and were substantially cash-based. From 2025 the statement is prepared on an accrual basis: grant income is recognised as eligible costs are incurred, and 2025 costs settled in 2026 are accrued. Because this affects comparability (Art. 958c CO), the cash reconciliation above bridges the net result to the movement in cash; the non-cash lines are the deferred income, accruals and receivable introduced by the accrual basis.

#### 6. Project grants

GreenGrocer (SERI contract 25.00414, Horizon Europe 101182025): CHF 295,800.00 received as the first of three instalments for the period 01.09.2025–31.08.2029. Recognised as income only to the extent of eligible costs incurred (CHF 8,838.16); the balance of CHF 286,961.84 is carried as deferred income. In accordance with contract clause 3.2 the funds are reported separately. ADEME (convention 2403D0042): reimburses 70% of eligible costs. The entitlement of EUR 84,761.12 earned in excess of the EUR 68,372.14 received is carried as an accrued income receivable.

#### 7. Prior-period presentation (2022 to 2023)

The 2022 statement closed with accumulated surplus of CHF 10,077.12, comprising cash of CHF 7,572.72 and a Brightcon receivable of CHF 2,504.40. The 2023 statement opened at CHF 7,572.72, i.e. from cash rather than from the accumulated surplus, so the receivable of CHF 2,504.40 was recognised as income in 2022 and again on receipt in 2023. The 2022-2024 statements were approved by the general assembly and are not restated. The equity chain from 1 January 2023 onward is unbroken. From 2025 each statement opens at the prior year's closing equity, and this is verified before issue.

#### 8. Accrued income

Three Brightcon 2025 registrations totalling EUR 875.00 were invoiced in 2025 but settled in 2026 (EUR 250.00 on 2026-01-14, EUR 375.00 on 2026-05-06, EUR 250.00 on 2026-05-08).

The conference was held in October 2025, so the income is recognised in 2025 with a matching receivable at the balance-sheet date. These receipts must be booked against the receivable in 2026, not recognised again as 2026 income.

#### 9. Refunds and excluded items

All transactions are retained in the detail sheets; none are deleted. Refunds of expenses are booked as negative contra-entries within their original expense category, never as income, so income and expenses are not offset (Art. 958c CO) and the ledger stays complete (Art. 957a CO). Internal transfers and failed or cancelled transactions are retained but excluded from the summary.

#### 10. Net assets

Net assets at 31 December 2025 are negative by CHF 1,956.11. This reflects the accrual presentation rather than a shortage of funds: cash of CHF 315,723.45 is held, and the largest liability — deferred GreenGrocer income of CHF 286,961.84 — is future revenue that will be released as project costs are incurred, not a debt falling due.

#### 11. Assumed tax and fine for 2023

CHF 775 (CHF 425 assumed tax, CHF 350 late-payment fine), both paid, relating to 2023, for which no tax return was filed. The underlying tax amount remains an estimate pending clarification with the Aargau tax authority on whether retroactive 2023 filing is possible. The association has filed compliantly since 2024.
